## A range of benefits for adding certainty to your pursuit of every priority

### Providing your wealth with long-term growth potential

The Plan is a participating insurance plan. The policy values of the Plan comprise guaranteed cash value, annual dividend (non-guaranteed) and special bonus (non-guaranteed). With a relatively high allocation in equity-type investments, it aims to deliver higher potential returns in the long term. For details, please refer to the section of dividend/bonus information and investment strategy.

### Flexible premium term and cash withdrawals to meet your financial needs

#### Multiple premium payment terms for flexible planning

You can choose to pay for the Plan in a single payment or over a premium payment term of 5 years, 10 years or 18 years to meet your needs. For your policy currency, you can select HK Dollar (HK\$), US Dollar (US\$) or Renminbi (RMB) to suit your wealth planning. You may also prepay premiums in advance by using the premium deposit account (Note 1).

#### Cash withdrawals for added financial flexibility

You may choose to withdraw cash from the policy at any time to enhance your liquidity:

- (1) Make a one-off withdrawal or exercise the regular withdrawal service (Note 2) after the end of the premium payment term to withdraw the accumulated annual dividends and interest (if any).
- (2) You may also choose to withdraw the guaranteed cash value and special bonus (if any) through partial surrender. For details, please refer to the partial surrender benefit under the summary of plan features.

### Premium holidays for extra financial planning options

Starting from the 1<sup>st</sup> policy year and during the premium payment term, you can apply for a premium holiday (Note 3) to accommodate your financial planning while the policy is in force. Available to customers who have selected the Plan with premium payment term of 5 years, 10 years and/or 18 years\*, the premium holiday provides for a suspension of premium payments for 2 years or 4 years (subject to premium payment terms) while the policy remains in force (please refer to the summary of plan features for details). If the policy owner is unfortunately diagnosed with one of the covered illnesses (cancer, heart attack or stroke), the Plan offers additional 1 year extended premium holiday period. The extended premium holiday period will be offered for once per policy even if more than one covered illness is diagnosed.

During the premium holiday, the annual dividend will not be paid while any accumulated annual dividends and interest (if any) remained in the policy will continue to earn interest (if any). The guaranteed cash value, special bonus (non-guaranteed which is subject to the latest bonus scales determined by us) and notional amount will be remained unchanged and equal to the amount immediately before premium holiday takes effect provided that there is no partial surrender during the premium holiday period. Once the premium holiday request is approved, any rider(s) attached to the policy will be automatically terminated and no riders can be attached afterward.

\* With premium payment term of 18 years, you are not allowed to exercise special bonus lock-in option during premium holiday.

### **Special bonus lock-in option to secure your wealth against market volatility**

The Plan also gives you the flexibility to secure part of your policy value in response to evolving financial priorities or changing market outlooks. Starting from the 15<sup>th</sup> policy year provided that the policy has been paid up and while the policy is in force, you can apply for special bonus lock-in option to convert a certain amount of the special bonus into annual dividend and leave it with the policy to accumulate interest (if any) by exercising one of the following options. The amount of special bonus which you apply for special bonus lock-in option is lock-in value (Note 4).

#### **1) Automatic lock-in option (Note 5)**

This option allows you to convert a certain amount of special bonus, equivalent to 10% of total premiums paid, into annual dividend. Once we have approved your request, the lock-in value of special bonus will be automatically converted on each subsequent policy anniversary.

#### **2) Flexi lock-in option (Note 6)**

You can apply to convert a specified percentage of special bonus (“lock-in percentage”) into annual dividend, subject to the annual minimum and maximum lock-in percentage which are 10% and 70% respectively. This option can only be exercised once every policy year and on the policy anniversary.

Once automatic lock-in option or flexi lock-in option has been exercised, the lock-in value will not be allowed to be reversed back to special bonus. The special bonus as at the relevant policy year and any special bonus which we may distribute for subsequent policy years will be lowered due to conversion of special bonus to annual dividend exercised.

## Dividend / bonus information & investment strategy

---

### Dividend / bonus information

The non-guaranteed annual dividend, non-guaranteed special bonus and non-guaranteed interest for accumulated annual dividends are determined based on the latest dividend/bonus declaration philosophy and investment strategy of FWD Life Insurance Company (Bermuda) Limited (incorporated in Bermuda with limited liability) (“FWD”, “We” or “us”) that shown below (Please refer to FWD’s website for latest information: <https://www.fwd.com.hk/en/regulatory-disclosures/dividend-bonus-declaration-philosophy/>)

You may also refer to below FWD’s website for dividend/bonus history: <https://www.fwd.com.hk/en/regulatory-disclosures/fulfillment-ratios/>

### Dividend / bonus declaration philosophy

FWD issues participating policies, which offer the policyholders (“You”) with dividend/bonus benefits that are not guaranteed. Dividend/bonus includes annual dividend (including interest on accumulated dividends), terminal dividend, reversionary bonus and special bonus.

Through the dividend/bonus declaration, you participate in the financial performance of the products. The financial performance covers the experience and future outlook of a number of factors, including but not limited to:

1. Investment return;
2. Expenses;
3. Persistency;
4. Claims experience.

FWD reviews the dividend/bonus at least annually based on our dividend policy. The dividend/bonus could be adjusted if the financial performance is different from the expectation, and as a result the actual declared dividend/bonus may be different from the benefit illustrations. FWD may also deduct as appropriate any cost and expense to support the policy benefits (such as charges to support guarantee) which will be reflected in the actual declared dividend/bonus.

The dividend/bonus recommendation is reviewed and approved by our Board of Directors (the “Board”), with written declaration by the Chairman of the Board, an Independent Non-Executive Director and the Appointed Actuary on due regard to our dividend policy as well as the principle of fair treatment of customers. The current year and projected dividend/bonus would be communicated to you at least annually. Any changes in the current year and projected dividend/bonus will be reflected in the policy annual statement.

### Smoothing

Financial performance is unforeseeable. To facilitate your financial planning, we have a smoothing process aiming to deliver a more stable dividend/bonus payouts during the policy term.

When the financial performance is better (worse) than expected, we may hold back a portion of the gains (losses), which will be passed back to you over the future years to ensure a more stable dividend/bonus payouts. Due to the variation of features and benefits of different products, different levels of smoothing may also be applied.

### Pooling

Consistent with the nature of insurance contracts, we also group similar policies together to pool the risks amongst a larger number of policyholders to provide diversification benefits, which help to stabilize the financial performance (and hence the dividend/bonus payouts).

To maintain the fairness between policyholders, we may also separate different generations of policies of the same product into different buckets with different dividend/bonus scales, with an aim to more closely reflect the underlying financial performance. As a result, the frequency and magnitude of the dividend/bonus adjustments may vary among different products and buckets. In general, the adjustments on dividend/bonus are more frequent and significant for products with higher risk profile.

## Dividend / bonus information & investment strategy

### Investment strategy

FWD's investment strategies are customized for different products to optimize the return. In particular, these asset portfolios employ a balanced asset allocation investment strategy, which consists of

- Investment-grade fixed income-type securities
- Equity-type investments to enhance the investment performance in the long run. This may include listed equity, hedge funds, mutual funds, private equity and property

The current long-term target asset allocation of this product is as follows:

Asset type	Target asset allocation (%)
Fixed income-type securities	30% - 100%
Equity-type investments	0% - 70%

The asset portfolios also target to provide diversification across different geographic regions and industries to the extent the size of portfolio can support.

Currency exposure of the underlying policies is partly mitigated through direct investments in the same currency denomination and the use of currency hedging instruments. For policies in US\$ and HK\$, the majority of the assets are invested in the United States and Asia Pacific and denominated in US\$. For policies in RMB, the majority of the assets are invested in China.

Furthermore, the asset portfolio is actively managed by investment professionals to closely monitor the investment performance. In addition to conducting regular review, FWD also reserves the right to change the investment strategy and shall notify policyholders for any material changes.

### Investment vehicle

The dividend/bonus rate will be influenced by the performance of the underlying investment portfolio, which consists of both fixed income-type securities and equity-type investments. The performance is not static and will be highly affected by the change in market conditions:

#### Fixed income-type securities

- The return of fixed income-type securities arise from the interest income ("the yield") attained at the purchase of the securities. Under a higher (lower) market interest rates environment, the company is more likely to attain higher (lower) interest income with the new money (e.g. proceeds from coupons, maturities, new contributions);
- The defaults or downgrades of the fixed income-type securities will result in unfavorable investment performance.

#### Equity-type investments

- The movement of the market price of the equity-type investments will result in change in the market value of the portfolio. Rise (fall) in the market price will increase (decrease) the market value of the portfolio.
- The change in dividend-type income from the equity-type investments will impact the investment results. Higher (lower) dividend-type income from the underlying investment will improve (worsen) the investment results.

Any amount withdrawn will be taken from the accumulated annual dividends and interest (if any). If there is not enough value in the accumulated annual dividends and interest (if any), the remaining withdrawal amount will be taken from the guaranteed cash value and special bonus (if any) as a partial surrender. Any partial surrender will reduce the notional amount. The total premium paid, subsequent guaranteed cash value, annual dividend (if any) and special bonus (if any) will be reduced on a proportional basis from the effective date of partial surrender, according to the reduction in notional amount. Surrender benefit, family accidental death benefit and death benefit will be reduced accordingly. The minimum monthly withdrawal amount is HK\$1,000 / US\$125 / RMB800, and the maximum annual withdrawal amount is 5% of the policy value, which may be determined in FWD's sole discretion from time to time. If you exercise the regular withdrawal service in early policy years, the amount withdrawn together with the policy values remained in the policy may be considerably less than the total amount of the premiums you paid. We will terminate the regular withdrawal service if the notional amount after the withdrawal would be below the minimum amount prescribed by FWD. For detailed termination conditions of regular withdrawal service, please refer to the policy provisions.

### 3. Premium holiday

If you request to surrender the policy partially after you have exercised automatic lock-in option, FWD will automatically suspend the automatic lock-in option. You are required to submit a new request in writing to resume the automatic lock-in option. For details, please refer to the policy provisions.

## Key product risks

---

### Credit risk

This product is an insurance policy issued by FWD. The application of this insurance product and all benefits payable under your policy are subject to the credit risk of FWD. You will bear the default risk in the event that FWD is unable to satisfy its financial obligations under this insurance contract.

### Liquidity risk

This product is a long term insurance policy. This policy of long term insurance will be made for certain determined term of years starting from the policy effective date to the policy maturity date. The policy contains value and, if you surrender your policy in the early policy years or before its maturity date, the amount you get back may be considerably less than the total premium you have paid. If you have selected the prepayment option for regular premium payment policies, all amounts in the premium deposit account will not be refunded or returned to you unless the policy is cancelled or surrendered. You should make sure that you intend to leave your prepayment amount in your premium deposit account. Application of the Plan may constitute the liquidity risk to your financial condition. You need to bear the liquidity risk associated with the Plan.

### Exchange rate and currency risk

The application of this insurance product with the policy currency denominated in a foreign currency is subject to that foreign currency's exchange rate and currency risk. The foreign currency may be subject to the relevant regulatory bodies' control (for example, exchange restrictions). If your home currency is different from the policy currency, please note that any exchange rate fluctuation between your home currency and the policy currency of this insurance product will have a direct impact on the amount of premium required and the value of benefit(s) to be received. For instance, if the policy currency of the insurance product depreciates substantially against your home currency, there is a negative impact on the benefits you receive from the product. If the policy currency of the insurance product appreciates substantially against your home currency, your burden of the premium payment is increased.

### RMB conversion limitation risk

RMB Insurance is subject to exchange rate fluctuations which may result in losses in the event that the customer converts RMB into HK\$ or other foreign currencies. RMB is currently not freely convertible and conversion of RMB may be subject to certain policy, regulatory requirements and/or restrictions (which are subject to changes from time to time without notice), which may result in loss. The actual conversion arrangement will depend on the policy, regulatory requirements and/or restrictions prevailing at the relevant time.

### Inflation risk

The cost of living in the future may be higher than now due to the effects of inflation. Therefore, the benefits under this policy may not be sufficient for the increasing protection needs in the future even if FWD fulfills all of its contractual obligations.

### Early surrender risk

If you surrender your policy in the early policy years or before its maturity date, the amount of the benefit you will get back may be considerably less than the total amount of the premiums you paid.

### Non-guaranteed benefits

Non-guaranteed benefits (including but not limited to annual dividend/special bonus) are not guaranteed and are determined at FWD's discretion based on its dividend/bonus declaration philosophy.

### Premium term

The premium payment term of the policy is single premium, 5 years, 10 years or 18 years.

### Non-payment of premium (not applicable to single premium policy)

FWD allows a grace period of 30 days after the premium due date for payment of each premium. If a premium is still unpaid at the expiration of the grace period and the policy has no cash value, the policy will be terminated from the date the first unpaid premium was due, unless the premium holiday has been exercised. If the policy has any loanable cash value, FWD shall automatically advance the amount of premium due as a loan against such loanable cash value of the policy. Once the total amount of outstanding loan and interest accrued thereon is equal to or exceeds the loanable cash value of the policy, the policy will be terminated and you may lose all of your benefits.

### Termination conditions

The policy shall terminate on the earliest of the following:

- 1) From the premium due date, if you have not paid your premiums within the 30-day premium grace period (unless the premium holiday has been exercised or automatic premium loan applies).

\* Total cash value is guaranteed cash value, plus unpaid accumulated annual dividends and interest (if any) plus special bonus.

### Exclusion from suicide

We will not pay any death benefit if the insured commits suicide within 13 calendar months from the policy date (or from the date we restart your policy, whichever is later), our legal responsibility will be limited to an amount equivalent to any premium paid without interest, after deducting any benefits we have paid, any amounts owed to us, and any outstanding insurance levy. This applies regardless of whether the insured was sane or insane when committing suicide.

### Exclusions for family accidental death benefit

The exclusions below apply to family accidental death benefit, we will not cover any loss/claim directly or indirectly caused by or resulting from any of the following:

# Policy-Split Option

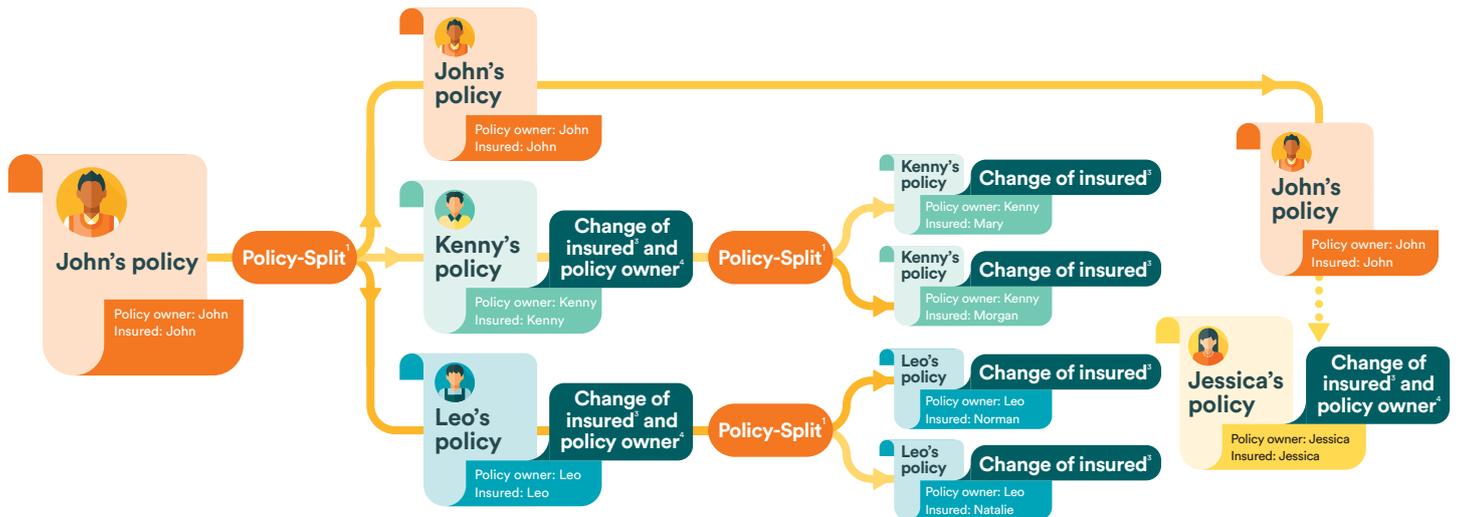

## Flexibility in Legacy Planning

As you will have more family members in different stages of life, you may have different needs in legacy planning, therefore FWD proudly offers the **Policy-Split Option**<sup>1</sup> (the “Policy-Split Option”) under our designated insurance plans<sup>2</sup> (“Designated Plans”).

The policy owner of a Designated Plan may apply to exercise the **Policy-Split Option** from the 5<sup>th</sup> policy anniversary onwards to separate a policy into two or more policies.

Combining with the Designated Plan’s change of insured option<sup>3</sup> and/or the change of policy owner option<sup>4</sup>, the separated policy(ies) could then be passed on to your spouse or your children, the policy term of a separated policy will be changed to age 138 (age next birthday) of the new insured and they may choose to keep each separated policy to accumulate wealth or exercise all rights under the separated policy(ies) (e.g. make a withdrawal of the accumulated annual dividends and interest (if any)).

### How does the Policy-Split Option work?

John is 40 years old and with 2 sons Kenny and Leo. He takes out the **MaxFocus Vision Insurance Plan**.

Kenny and Leo have become adults. As the value of John’s policy has significantly grown, he decides to split his policy<sup>1</sup> into 3, 1 for himself and each of his sons to pass on his wealth.

Kenny and Leo both have 2 children. They each decide to split their policies<sup>1</sup> so that each child will be insured under a separate policy.

John is unfortunately diagnosed with terminal illness, he decides to change the ownership<sup>4</sup> and insured<sup>3</sup> of his policy to his wife Jessica to pass on his wealth.

Age of John (age next birthday)

#### Remarks of the Policy-Split Option:

1. The policy owner of a Designated Plan shall make a written application to transfer a designated percentage (“transfer percentage”) of notional amount of his/her original policy to one or more separated policy(ies) (“Policy-Split”). Such application is subject to the minimum notional amount requirement, prevailing administrative rules and approval of FWD Life Insurance Company (Bermuda) Limited (Incorporated in Bermuda with limited liability) (“FWD”) determined in FWD’s sole discretion from time to time, including but not limited to the following:
  - a. Starting from the 5<sup>th</sup> policy anniversary and within 60 days before the end of each policy year, the policy owner of a Designated Plan may apply to exercise the Policy-Split Option once per policy year.
  - b. The policy owner is not permitted to withdraw or reverse his/her application to exercise the Policy-Split Option once the application is approved by FWD.
  - c. Once FWD approves the application to exercise the Policy-Split Option, the effective date of the Policy-Split shall be the policy anniversary of the original policy immediately after the application to exercise the Policy-Split Option.
  - d. At the time of making the application for exercising the Policy-Split Option and FWD’s approval of the application, all premiums and insurance levies due (if any) have been paid under the original policy.
  - e. At the time of making the application for exercising the Policy-Split Option and FWD’s approval of the application, the original policy is not in the status of premium holiday (if applicable).
  - f. At the time of making the application for exercising the Policy-Split Option and FWD’s approval of the application, there is no indebtedness owed to FWD under the original policy.

Upon approval by FWD of the application to exercise the Policy-Split Option, all of the following shall take place from the effective date of the Policy-Split:

- a. Benefit entitlements of the baby bonus and the outstanding performance awards of the original policy and separated policy(ies) will be terminated immediately.
- b. Policy services designated by the policy owner of the original policy, including but not limited to regular withdrawal service, death benefit settlement option, and special bonus lock-in option, shall be terminated immediately.
- c. The separated policy(ies) will be issued with the same policy currency and policy date as those of the original policy.
- d. The separated policy(ies) will be issued with the same policy term as of the original policy if the insured of the separated policy(ies) is the same as the original policy. If the insured of the separated policy(ies) is changed, the policy term of such separated policy(ies) will then be changed to age 138 (age next birthday) of the new insured.
- e. Policy values of the original policy including the total cash value will be reduced to reflect the transfer of notional amount to the separated policy(ies) in accordance with the transfer percentage.
- f. An amount which is equal to the total cash value (i.e. the sum of guaranteed cash value, annual dividend (if any) and special bonus (if any)) and any balance in the premium deposit account (if any) under the original policy multiplied by the transfer percentage will be transferred to the separated policy(ies).
- g. The future premiums payable under the original policy and the separated policy(ies) will be adjusted according to the latest notional amount of each of the policies.
- h. There is no cooling-off period for the separated policy(ies).

Policy-Split Option is an administrative arrangement and does not form part of the plan features. Such application is subject to FWD’s prevailing administrative rules which shall be determined and modified by FWD from time to time without prior notice. The availability of the Policy-Split Option and the acceptance of the application are at FWD’s sole and absolute discretion.

2. Designated Plans refer to the following plans underwritten by FWD:

- a. MaxFocus Vision Insurance Plan; and
- b. Wealth ICON Supreme II Insurance Plan.

FWD may amend the list of Designated Plans from time to time without prior notice.

3. After the end of 1<sup>st</sup> policy year and the insured is alive, the policy owner of a Designated Plan can apply in writing to change the insured. Any change to the insured must fulfill FWD’s relevant policies and procedures as determined in FWD’s sole discretion from time to time. Any change of the insured will not have any effect on the notional amount, guaranteed cash value, special bonus (if any), annual dividend and interest (if any) or policy years. The age of new proposed insured should fulfill the issue age (age next birthday) requirement of the Designated Plan. The new insured must have an insurable interest with the policy owner. All riders (if any) will be terminated after insured is changed and no riders can be attached afterwards.
4. Subject to the policy provisions of the Designated Plan, while the Designated Plan is in effect, the policy owner may be changed if the current policy owner submits a written request to FWD. After confirming the receipt of all of the relevant information, FWD will process such request and such change will be effective from the date the request is approved by FWD.

The above illustrative example assumes that all premiums are paid in full when due, no claims have been paid and there is no indebtedness under the policy of the Designated Plan.

Policy owner of a Designated Plan should carefully consider his/her personal needs before exercising the Policy-Split Option. Policy owner of a Designated Plan may contact his/her advisor for a customized illustration.

The information above is for reference only and is intended to describe the Policy-Split Option of the Designated Plan, and shall be read in conjunction with the Designated Plan’s product brochure. The information above shall not be construed as an offer or solicitation to buy or provision of any products. FWD endeavored to ensure the information is accurate and complete.
