

Aberdeen Global - Indian Equity Fund

A Acc USD

Performance Data and Analytics to 31 March 2018

Important Information

- The Fund invests in equities and equity-related securities of companies registered in or conducting the bulk of their business activities in India.
- The Fund invests in emerging markets which tend to be more volatile and is subject to higher political, regulatory, credit and liquidity risks.
- The Fund's exposure to a single country market increases potential volatility.
- Investment in this fund may involve a high degree of risk and may not be suitable for all investors. It is possible that the entire value of the investment could be lost.
- Investors are responsible for their investment decisions and should ensure that the intermediary has advised on fund's suitability and consistency with their investment objective. If in doubt, please seek independent financial and professional advice.
- Investors should not invest in this Fund based solely on this document and should read the relevant offering documents (particularly the investment policies and risk factors) for more details before investing.

Investment objective

To achieve long-term total return by investing at least two-thirds of the Fund's assets in equities and equity-related securities of companies with their registered office in India; and/or companies which have the preponderance of their business activities in India; and/or holding companies that have the preponderance of their assets in companies with their registered office in India.

Aberdeen Global - Indian Equity Fund

Fund risk statistics

	3 years	5 years
Annualised Standard Deviation of Fund	16.94	17.69
Beta	0.98	0.96
Sharpe Ratio	0.32	0.70
Annualised Tracking Error	4.00	4.67

Source: Aberdeen Asset Management, total return, Gross of Fees, BPSS, Datastream, USD.

Please note the risk analytics figures are calculated on gross returns whereas the performance figures are based on net asset value (NAV) returns. In addition, the risk analytics figures lag the performance figures by one month. It should be noted that the figures provided regarding risk would be adjusted if fund fees and expenses were included.

Standard deviation measures historical volatility. Beta is a measure of the volatility of a portfolio in comparison to a benchmark index. Sharpe ratio measures risk-adjusted performance.

Tracking error measures the divergence between the price behavior of a position or a portfolio and the price behavior of a benchmark.

Important information

The above is strictly for information purposes only and should not be construed as advice or an offer or solicitation, to deal in any investment product. Any research or analysis used in the preparation of the above information, procured by Aberdeen Standard Investments (Hong Kong) Limited ("ASI HK") for its own use and purpose, is based upon sources believed to be reliable as of the date thereof, but no representation or warranty is given as to the accuracy or completeness of data sourced from third parties. Any projections or other forward-looking statements regarding future events or performance of countries, markets or companies are not necessarily indicative of, and may differ from, actual events or results. Opinions, estimates or forecasts may be changed at any time without prior warning.

Investment involves risk. Past performance is not a guide to future performance. Investment returns are denominated in the base currency of the fund. US / HK dollar based investors are therefore exposed to fluctuations in the US dollar / HK dollar / base currency exchange rate. Investors may not get back the amount they have invested. No liability whatsoever is accepted for any loss arising from any person acting on any information contained in this document.

This document is issued by ASI HK and has not been reviewed by the Securities and Futures Commission.
