- The Fund is subject to risks, such as investment risk, equities, liquidity, counterparty, currency and Eurozone sovereign debt crisis risks. The Fund's investment in equity-related securities is subject to the risks of insolvency and default of issuer, liquidity and performance dilution. The Fund may also be subject to the risks of investing in convertible bonds.
- The Fund may invest in emerging markets and is subject to additional risks, including liquidity, currency/currency control, political and economic uncertainties, legal, taxation, settlement, custody, and higher volatility. Investment in specific countries may also involve higher concentration risk.
- The Fund may invest in derivatives for investment or efficient portfolio management purposes. Such investments may result in higher volatility or a significant loss in the Fund's assets within a short period of time.
- Dividends may be paid out of unrealised capital gains at the discretion of the Manager which would effectively represent paying dividend out of capital. This amounts to a return or withdrawal of part of an investor's original investment or any capital gains attributable to that original investment. Payment of dividends may result in an immediate reduction of the net asset value of the Fund.
- Investors may suffer substantial loss of their investments in the Fund.

Investment Objectives¹

To achieve long-term capital appreciation through investment in a diversified portfolio of securities of issuers located in or with a significant exposure to the emerging markets of Europe.
