

- The Fund is subject to risks, such as investment, credit, interest rate, volatility, liquidity, downgrading, sovereign debt, valuation, credit rating, counterparty, currency risks and the risks of investing in convertible bonds. The Fund's investment in sub-investment grade or unrated debt securities may be subject to higher liquidity, volatility and credit risks than high-rated debt securities.
- The Fund's investment may be concentrated in specific countries or region and the value of the Fund may be more volatile. Investment in emerging markets may involve increased risks, including liquidity, currency/currency control, political and economic uncertainties, legal and taxation, settlement, custody, and volatility risks, while investment in countries within the Eurozone may involve Eurozone sovereign debt crisis risks.
- The Fund may invest in derivatives for investment or efficient portfolio management (including hedging) purposes which may involve counterparty/credit, liquidity, valuation, volatility and over-the-counter transaction risks. Exposure to derivatives may lead to a high risk of significant loss by the Fund.
- Dividends may be paid out of unrealised capital gains and/or gross income while paying all or part of the fees and expenses of the Fund out of capital resulting in an increase in distributable income at the discretion of the Managers. These would effectively represent paying dividend out of capital which amount to a return or withdrawal of part of an investor's original investment or any capital gains attributable to that original investment. Payment of dividends may result in an immediate reduction of the net asset value of the Fund per unit.
- Investors may suffer substantial loss of their investments in the Fund.

Investment Objectives¹

The investment objective of the Fund is to produce a high level of current yield in US dollar terms, commensurate with an acceptable level of risk as determined by the Fund Manager in their reasonable discretion. Any capital appreciation will be incidental.
