

1. This is an equity fund.
2. Investing in this fund may expose investors to market, liquidity, volatility, exchange and developing countries risks as well as to risk of small and medium companies. Share price and currency volatility are generally higher in developing markets. The use of financial derivative instruments for hedging and efficient portfolio management purposes may lead to exposure to credit risk of the issuer.
3. The investment focus of the fund might give rise to increased risk over more diversified funds.
4. The value of the fund can be extremely volatile and could go down substantially within a short period of time. It is possible that your investment value could suffer substantial loss.
5. The investment decision is yours, but you should not invest in the product unless the intermediary who sells it to you has advised you that the product is suitable for you and explained why including how buying it would be consistent with your investment objective.

May 2017

Investment objective:

To seek long-term capital appreciation by investing at least two thirds of assets in equities issued by companies (i) Listed on the authorised markets in Hong Kong and having their domicile or substantial activity in Hong Kong or the People's Republic of China or (ii) Not listed on the authorised markets in Hong Kong but based in or having most of their activities in the People's Republic of China or Taiwan. The fund's total exposure (via both direct and indirect investments) to China A Shares and China B Shares will not be more than 10% of its assets. Exposure to China A Shares will mainly be through investing in funds investing in China A Shares. Exposure to China B Shares will mainly be through direct investment in China B Shares.
