Risk Considerations

- The Fund may invest in debt securities and money market instruments, and as a result may be subject to interest rate risk caused by movements in interest rates.
- The Fund may invest in fixed income securities and money market instruments where an issuer may fail to make principal and interest payments.
- The Fund's value may be affected by exchange control regulations and changes in exchange rates.
- The Fund may at its discretion pay dividends out of the capital or out of gross income of the Fund while paying all or part of the Fund's fees and expenses out of the capital of the Fund, which results in effectively paying dividends out of capital.
- Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment.
- Any distributions involving payment of dividends out of the Fund's capital or payment of dividends effectively out of the Fund's capital (as the case may be) may result in an immediate reduction of the net asset value per share.
- This investment involves risks which may result in loss of part or entire amount of your investment.
- Before you decide to invest, you should make sure the intermediary has explained to you that the Fund is suitable to you.
- Investors should not only base on this marketing material alone to make investment decisions.
