- The Fund invests in the quoted equity securities of companies or REITs (or their equivalents) listed or traded on a regulated market, which engaged in real estate businesses.
- Investments in the Fund are exposed to property-sector specific risk and varying degree of risks to economic, political, regulatory and social development changes globally.
- The Fund may invest substantial sum of its assets in companies located in a single country (including emerging market, eg. China) and may involve a higher concentration of risk and market volatility, including liquidity risks for investments in emerging markets, than funds investing in developed markets and following a more diversified policy.
- Investments in the Fund involve varying degree of investment risks (eg. market, legal, financial, interest rate, currency, etc). In extreme market conditions, you may lose your entire investment in the Fund.
- In respect of Distribution Shares, the directors of the Fund may at its discretion pay dividend out of gross income while charging/ paying all or part of the fund's fees and expenses to/out of the capital of the fund, resulting in an increase in distributable income for the payment of dividends by the fund and therefore, the fund may effectively pay dividend out of capital.
- Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of the Fund's capital or payment of dividends effectively out of the Fund's capital (as the case may be) may result in an immediate reduction of the NAV per share of the Fund.
- Investors should not only base on marketing material alone to make investment decisions. Investors are advised to read the Prospectus, Hong Kong Covering Document and Key Facts Statement of the Fund for more details of the investment risks. Intended annual dividend distribution by the Fund and its derived yield are not guaranteed and subject to change without any prior notice.

About the fund

The investment objective of the Global Property Equities Fund is to seek long term capital appreciation by investing in the quoted equity securities of companies or Real Estate Investment Trusts (or equivalents) listed or traded on a regulated market which derive the main part of their revenue from the ownership, management and/or development of real estate, throughout the world.
