## Important information

- The Fund's investment in equity could be volatile and subject to high risk of loss. The Fund invests in a concentrated portfolio which can be more volatile than more broadly diversified portfolios.
- The Fund may use derivatives for hedging and/or efficient portfolio management purposes and may be exposed to significant risk of loss when the use becomes ineffective. Derivatives will not be used extensively for investment purposes.
- The Inc-2 Share Classes pay dividends gross of expense and therefore may effectively pay dividend out of capital. IRD Share Class pay dividend gross of expense or from its capital at the Director's discretion. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. This may result in an immediate reduction of the net asset value per Share.
- IRD Share Class, Reference Currency Hedged Share Class and Portfolio Currency Hedged Share Class ("PCHSC") may be subject to risks arising from uncertainty in interest rate and foreign exchange.
- In adverse situations, the Fund may suffer significant losses. It is possible that the original amount you invested could be lost.
- Investors should not solely rely on this document to make investment decisions.

## Investment objective and strategy

The Fund aims to achieve long-term capital growth primarily through investment in shares of companies around the world. The Fund will have a blend of investments and will be unrestricted in its choice of companies either by size or industry, or in terms of the geographical make-up of the portfolio. The Fund will focus investment on stocks deemed to be of high quality which are typically associated with global brands or franchises.
