JPMorgan Funds - Greater China Fund

SICAV Range

April 2018

- The Fund invests primarily in companies from the People's Republic of China ("PRC"), Hong Kong and Taiwan.
- The Fund is therefore exposed to emerging markets, investments in the PRC, Shanghai-Hong Kong Stock Connect, PRC tax, currency, liquidity, equity and smaller companies risks.
- The Fund may at its discretion pay dividends out of capital. The Fund may also at its discretion pay dividends out of gross income while charging all or part of the Fund's fees and expenses to the capital of the Fund, resulting in an increase in distributable amount for the payment of dividends and therefore, effectively paying dividends out of realised, unrealised capital gains or capital. Investors should note that, share classes of the Fund which pay dividends may distribute not only investment income, but also realised and unrealised capital gains or capital.
