JPMorgan Funds - Global Natural Resources Fund SICAV Range

October 2017

- The Fund invests primarily in natural resources companies, globally.
- The Fund is therefore exposed to emerging markets, concentration, smaller companies, indirect exposure to commodities, natural resources stock, currency, liquidity, equity and Eurozone sovereign debt crisis risks.
- The Fund may at its discretion pay dividends out of capital. The Fund may also at its discretion pay dividends out of gross income while charging all or part of the Fund's fees and expenses to the capital of the Fund, resulting in an increase in distributable amount for the payment of dividends and therefore, effectively paying dividends out of realised, unrealised capital gains or capital. Investors should note that, share classes of the Fund which pay dividends may distribute not only investment income, but also realised and unrealised capital gains or capital. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any dividend payments, irrespective of whether such payment is made up or effectively made up out of income, realised and unrealised capital gains or capital, may result in an immediate reduction of the net asset value per share.
- Investors may be subject to substantial losses.
- Investors should not solely rely on this document to make any investment decision.

INVESTMENT OBJECTIVE

To provide long-term capital growth by investing primarily in natural resources companies, globally, many of which are in the early stages of exploration.

It should be noted that due to the difference of the fund domiciles the valuation points used by Unit Trust range and SICAV range of funds for fair valuation (where applied) may vary. For details please refer to the respective offering document(s). 1)Prior to 04.01.16, Euromoney Global Gold, Mining & Energy Net. Dividends reinvested after deduction of withholding tax. On 01.03.07 a customised index was introduced in order to facilitate a comparison between the Fund's performance and that of the broader Natural Resources sector. Please note that the Fund should not be expected to look or perform similar to the index. For this reason, it is not appropriate to show correlation, alpha and tracking error as the methodology uses benchmark data. Beta is shown for informational purposes only. 2)Available for purchase in Hong Kong on 08.01.08. 3)Available for purchase in Hong Kong on 24.07.06. 4)With the exception of the "Average annual return" figure, all data are calculated from the month end after inception. 5)Issued by The Asset, 2017 award, reflecting performance of previous calendar year.

For funds offering classes with a distribution feature, such classes aim at monthly, quarterly, semi-annual or annual distribution as the case may be. Dividend rate is not guaranteed. Distributions may be paid from capital. The investment returns are calculated in denominated currency. For funds/classes denominated in foreign currencies, US/HK dollar-based investors are therefore exposed to fluctuations in the currency exchange rate. Investment involves risk. Past performance is not indicative of future performance. Please refer to the offering document(s) for details, including the risk factors.
