Investment Objective

Seeks to provide a level of current income that is higher than the yield generally available in Asia Pacific equity over the longer term.

Risk Considerations

- ✳ Investment involves risk. It is possible to lose the principal capital of your investment.
- ✳ The Fund invests primarily in Asian countries and economies. Investment in such emerging markets may be subject to increased risks such as political, tax, economic, market, liquidity, custody and settlement, currency, legal and regulatory risks.
- ✳ The Fund may, at its discretion, pay dividends out of the capital or effectively out of capital in respect of the distribution shares. Payment of dividends out of capital and/or effectively out of capital represents a return or withdrawal of part of an investor's original investment, or from any capital gains attributable to that original investment. Such dividends may result in an immediate reduction of the net asset value per share of the Fund.
- ✳ The Fund invests primarily in equity securities, which may result in increased volatility.
- ✳ The Fund may invest in smaller companies which are likely to carry higher risks than larger companies.
- ✳ The Fund does not hedge to attempt to offset certain market risks. This may expose the Fund to the risk of full losses resulting from a decline in a security's value.
- ✳ Investors should not invest in the Fund solely based on the information in this document.

4 Equity market cap of issuer.

5 The P/E Ratio is the share price of a stock as of the report date, divided by the forecasted earnings per share for a 12-month period (FY1) and 24 month period (FY2). For the Fund, this is the weighted harmonic average estimated P/E ratio of all the underlying stocks in the Fund, excluding negative earners. There is no guarantee that the composition of the Fund will remain unchanged, or that forecasted earnings of a stock will be realized. Information provided is for illustrative purposes only.

6 The Dividend Yield (trailing) for the portfolio is the weighted average sum of the dividends paid by each equity security held by the Fund over the last 12 months divided by the current price as of report date. The annualised dividend yield for the Fund is for the equity-only portion of the portfolio. Please note that this is based on gross equity portfolio holdings and does not reflect the actual yield an investor in the Fund would receive. A positive distribution yield does not imply positive return, and past yields are no guarantee of future yields. Information provided is unaudited.
