市場回顧

■ 區內市場月內表現不一。在中國，投資者憂慮政策過度緊縮，影響市場氣氛。韓國表現領先區內市場，主要由於大選過後，籠罩全國的政治不明朗因素消退。由於企業業績好壞參半，印度市場表現波動。

基金分配及持倉

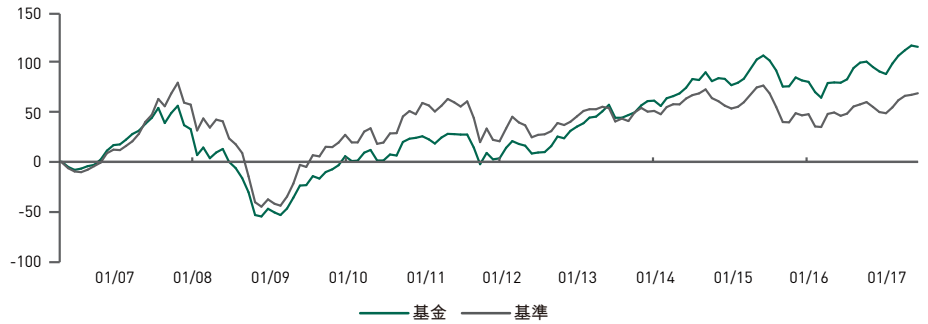

- 基金月內表現落後基準指數。
- 科技股大幅回升後，投機性沽售的氣氛高漲，令香港/中國科技股持倉削弱基金回報。印度方面，巴拉特重型電氣 (Bharat Heavy Electricals) 的新訂單疲弱，同樣拖累基金表現。投資團隊並無特別憂慮迷你資本支出週期，相信巴拉特重型電氣能受惠於印度發電廠升級。由於LeapFrog成功轉虧為盈，帶動偉易達 (VTech) 造好，利好基金表現。Mando及Hanon Systems表現同樣領先。大選後投資情緒樂觀，投資者採取長遠策略，價格亦反映部分結構性推動因素。
- 投資團隊月內增持部分北亞地區的科技股，包括群光電能科技 (Chicony Power Technology)，由於該公司可望成功開拓新產品客源，並有更多跡象顯示公司於供應鏈中的實力穩健，相信能錄得持續增長。

市場展望

■ 近期股市表現傾向科技股。市場會繼續留意地緣政治及政策風險，有關風險應會於短期引發市場波動。鑑於估值水平較全球股市低，並受利好的盈利環境支持，投資團隊對亞洲股市維持審慎樂觀。

RISK DISCLOSURE STATEMENT

•The Fund invests in smaller to medium-sized companies in the Asian region and may be exposed to additional risks (e.g. equity, small and/or mid capitalised companies, emerging markets, market volatility, country selection, Shanghai-Hong Kong Stock Connect Risk and liquidity risks, etc.).•The Fund may use financial derivative instruments ("FDI") for efficient portfolio management (including hedging) purposes only but will not use FDI extensively for any purpose. •Dividends, if any, may be paid out of capital of the Fund at the discretion of the Manager. This amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment and may result in an immediate decrease in the net asset value of the Fund. •Investors may be subject to substantial losses due to investment loss risk and the leveraging effect of using FDI. •Investors should not rely solely on this material to make investment decisions.

MARKET REVIEW

Regional markets were mixed during May. In China, market sentiment continued to be dragged down by the perceived risk of policy 'over-tightening'. Korea outperformed the region as political uncertainty that engulfed the nation was lifted somewhat after the presidential election. India traded on a volatile note during the month amid a mixed reporting season.

FUND ATTRIBUTION & POSITIONING (based on Y share class)

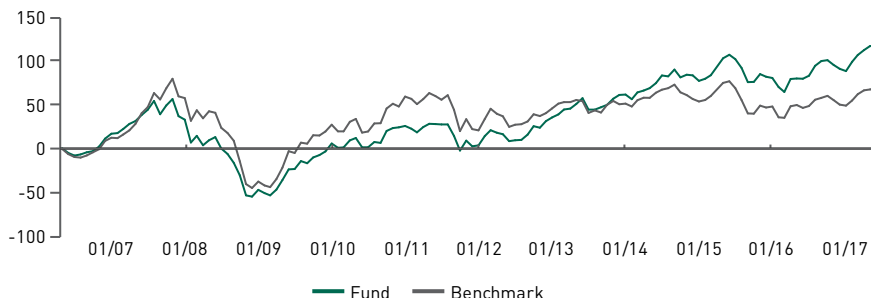

- The fund underperformed its benchmark index during May.
- Exposure to the Hong Kong/China technology sector detracted from fund performance amid heightened speculative selling interests post a strong run-up of the sector. In India, Bharat Heavy Electricals also hurt performance after the company reported weak order inflows. The team does not read too much into mini-capex cycles and continues to like the stock as a beneficiary of power plant upgrades in the country. VTech contributed positively due to a successful LeapFrog turnaround. Mando and Hanon Systems also outperformed. Sanguine sentiment post the election led the market to take a longer-term view, pricing in some of the structural drivers.
- The team added to the fund's position in certain technology names in North Asia during the month, including Chicony Power Technology. The team believes greater visibility with regards to a new product pipeline of customers, along with increased evidence of the company's strength within the supply chain, gives it confidence of the company's sustained long-term growth prospects.

MARKET OUTLOOK

Recent stock market performance has been skewed towards technology stocks. Markets will remain mindful of policy and geopolitical risks, which may induce short-term volatility. The team remains cautiously optimistic in Asia, given valuation levels are less stretched against global markets and are well supported by a favorable earnings environment.

This material is issued by PineBridge Investments Asia Limited and has not been reviewed by the Securities and Futures Commission. PineBridge Asia ex Japan Small Cap Equity Fund (the "Fund") is a sub-fund of PineBridge Global Funds, an Irish domiciled UCITS umbrella fund, authorized and regulated by the Central Bank of Ireland. PineBridge Investments is a group of international companies that provide investment advice and market asset management products and services to clients around the world. PineBridge Investments is a registered trademark proprietary to PineBridge Investments IP Holding Company Limited. Material change to the Fund: Before 1 July 2008, the benchmark of the Fund was S&P/Citigroup Southeast Asia + China Extended Market Total Return Index. From 1 July 2008 to 31 December 2015, the benchmark of the Fund was changed to S&P Pan Asia Ex-Japan under USD 1.5 Billion Index. From 1 January 2016, the benchmark of the Fund was changed to MSCI All Country Asia Pacific ex Japan Small Cap Daily Total Return Net Index. Such change was made because the Investment Manager of the Fund reasonably considers that the current benchmark of the Fund is more reflective of the Fund's investment strategy than the previous benchmark of the Fund.
