市場回顧

■ 由於美國企業的第一季業績強勁，對來年的信心普遍改善，環球股市於月底重拾動力。法國總統大選首輪結果相對理想，亦有利投資氣氛。不過，中國借貸放緩，商品價格下跌，削弱整體樂觀情緒。

基金分配及持倉

- 基金月內表現領先基準指數。
- 多個行業皆利好基金表現，尤其為資訊科技及原料業。資訊科技業中，Alphabet及三星(Samsung)表現領先，消費股Cineworld及Zalando亦造好。必需消費品的比重大幅偏低，成為削弱回報主因。基金最近數月開始增持歐洲小型股，而當中多間企業表現強勁。
- 基金月內買入愛爾蘭上市公司Kerry Group，這間全球大型食材及調味料生產商與顧客加強合作，回報持續好轉，並受惠於外判的趨勢。基金持倉月內大致維持不變，但仍然致力進一步物色歐洲及亞洲企業的投资機會。

市場展望

■ 今年第一季的企業信心顯著改善。市場調查和信心指數均理想，帶動總需求上升。因此，投資團隊對股市前景維持謹慎樂觀，但由於估值偏高，必須比過去數年更審慎選股。

RISK DISCLOSURE STATEMENT

•The Fund invests primarily in equity and equity-related securities in global markets and may be exposed to additional risks (e.g. equity, market volatility, portfolio concentration, country selection, Eurozone debt crisis and investment in Russia risks, etc). •The Fund may use financial derivative instruments ("FDI") for efficient portfolio management (including hedging) purposes only but will not use FDI extensively for any purpose. •Dividends, if any, may be paid out of capital of the Fund at the discretion of the Manager. This amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment and may result in an immediate decrease in the net asset value of the Fund. •Investors may be subject to substantial losses due to investment loss risk and the leveraging effect of using FDI. •Investors should not rely solely on this material to make investment decisions.

MARKET REVIEW

Global equities regained their momentum toward the end of April as US first quarter results got off to a strong start with a general improvement in corporate confidence for the coming year. The relatively benign outcome of the first round of the French elections also helped to boost spirits. However, a lending slowdown in China and falling commodity prices are acting to temper the broad based enthusiasm.

FUND ATTRIBUTION & POSITIONING

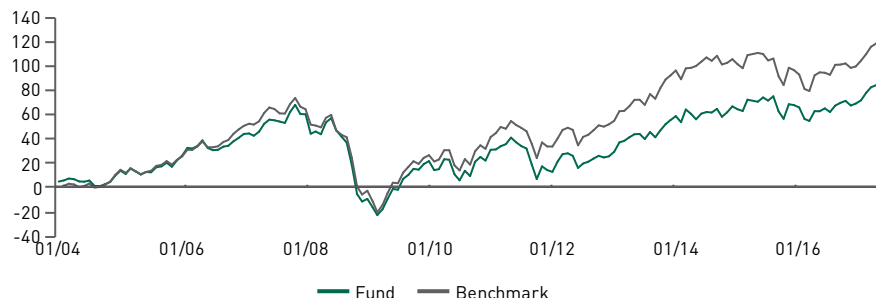

- The fund outperformed its benchmark index during April.
- Strong contributions from several sectors, most notably information technology (IT) and materials, helped fund performance. Within the IT sector, strong performance from both Alphabet and Samsung stood out, as did Cineworld and Zalando in the consumer space. The consumer staples sector was the only negative contributor as a result of the fund's large relative underweight. The fund experienced a strong showing from a number of its European smaller companies, an area into which the team has been adding over the past few months.
- One new name was introduced to the fund in April, Kerry Group, listed in Ireland. Kerry is the global leader in ingredients and flavorings and is steadily improving returns through deeper partnerships with customers, and it is benefitting from a growing trend towards outsourcing. As a result, the fund's positioning changed very little over the month, but the focus remains to expand further into European and Asian companies.

MARKET OUTLOOK

There has been a tangible improvement in confidence across the corporate world through the first quarter of this year. Obviously, much of the survey and sentiment data has been strong, and this bodes well for an improvement in aggregate demand. As a result, the team remains cautiously optimistic about the outlook for equities, but high valuations require greater selectivity than has been the case in recent years.

Investment involves risks. Past performance is not indicative of future performance. Investors should refer to the offering documents for details, including risk factors. All information as of 30 Apr 2017. Unless otherwise noted, all information is sourced from PineBridge Investments internal data. This material is issued by PineBridge Investments Asia Limited and has not been reviewed by the Securities and Futures Commission. PineBridge Global Focus Equity Fund (the "Fund") is a sub-fund of PineBridge Global Funds, an Irish domiciled UCITS umbrella fund, authorized and regulated by the Central Bank of Ireland. PineBridge Investments is a group of international companies that provide investment advice and market asset management products and services to clients around the world. PineBridge Investments is a registered trademark proprietary to PineBridge Investments IP Holding Company Limited. Material change to the Fund: From inception, the benchmark of the Fund was the MSCI All Country World Daily Total Return Net Index. On 1 March 2011, the benchmark of the Fund was changed to MSCI World Index Daily Total Return Net Index. Such change was made because MSCI World Index Daily Total Return Net Index was considered more reflective of the Fund's investment strategy and it had become the industry standard for the relevant exposure. From 10 February 2014 to 26 October 2016, the benchmark of the Fund was changed to the MSCI All Country World Index (ACWI) as it is more reflective of the Fund's investment strategy and country allocation and in particular, it includes exposure to emerging markets. With effect from 27 October 2016, the benchmark of the Fund was changed to MSCI All Country World Index (ACWI) Daily Total Return Net because the Investment Manager of the Fund reasonably considers that the new benchmark is more reflective of the Fund's investment strategy than the previous benchmark. On 19 February 2013, PineBridge Investments Europe Limited was appointed as co-investment manager to manage the Fund in tandem with the existing investment manager, PineBridge Investments LLC.
