Risk Disclosure:

- The Fund invests primarily in equity and equity-related securities of companies listed on stock exchanges in India or closely related to the economic development and growth of India, and may be exposed to additional risks (e.g. equity, emerging markets, market volatility, country concentration and Indian exchange control risks, and risk associated with Indian taxation for investments made through PineBridge GF Mauritius Limited, etc).
- The Fund may use financial derivative instruments ("FDI") for hedging purposes only but will not use FDI extensively for any purposes.
- Dividends, if any, may be paid out of capital of the Fund at the discretion of the Manager. This amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment and may result in an immediate decrease in the net asset value of the Fund.
- Investors may be subject to substantial losses due to investment loss risk and the leveraging effect of using FDI.
- Investors should not rely solely on this material to make investment decisions.
