## Risk Disclosure:

- The Fund invests primarily in equity and equity-related investments in smaller to medium sized companies operating in the economies of Latin America and may be exposed to additional risks (e.g. equity, emerging markets, country selection, market volatility, small and/or mid capitalized companies, liquidity and currency risks, etc).
- The Fund may use financial derivative instruments ("FDI") for hedging purposes only and may receive warrants passively but will not use FDI extensively for any purpose.
- Dividends, if any, may be paid out of capital of the Fund at the discretion of the Manager. This amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment and may result in an immediate decrease in the net asset value of the Fund.
- Investors may be subject to substantial losses due to investment loss risk and the leveraging effect of using FDI.
