RISK DISCLOSURE:

- The Fund invests in a diversified portfolio of income producing debt securities and may be exposed to additional risks (e.g. fixed income, emerging markets, market volatility, mortgage-backed securities and other asset backed securities, below investment grade debt securities investment, sovereign debt, collective investment schemes and convertible bonds risks, etc.).
- The Fund may use financial derivative instruments ("FDI") for efficient portfolio management (including hedging) and for investment purposes but will not use FDI extensively for any purpose.
- Dividends, if any, may be paid out of capital of the Fund at the discretion of the Manager. This amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment and may result in an immediate decrease in the net asset value of the Fund.
- Investors may be subject to substantial losses due to investment loss risk and the leveraging effect of using FDI.
- Investors should not rely solely on this material to make investment decisions.

PineBridge Global Strategic Income Fund (the "Fund") is a sub-fund of PineBridge Global Funds, an Irish domiciled UCITS umbrella fund, authorized and regulated by the Central Bank of Ireland. PineBridge Investments is a group of international companies that provide investment advice and market asset management products and services to clients around the world. PineBridge Investments is a registered trademark proprietary to PineBridge Investments IP Holding Company Limited. Material Change to the Fund: From inception to 31 December 2010, the benchmark of the Fund was Barclays Capital US Aggregate Bond Index. From 1 January 2011, the benchmark of the Fund was changed to a blended index of 10% of the FTSE Non-USD World Government Bond Index (Unhedged) (Total Return), 35% of the Bloomberg Barclays Capital US Corporate High Yield 2% Issuer Capped Index (Total Return), 20% of the JP Morgan Emerging Markets Bond Index (EMBI) Global Diversified (Total Return) and 35% of the Bloomberg Barclays Capital US Aggregate Bond Index (Total Return). Such change was made because the Investment Managers of the Fund reasonably considered that such blended index was more reflective of the Fund's investment strategy than the previous benchmark and that such blended index had become the industry standard for the relevant exposure.
