Fund Description

The Global Investment Grade Credit Fund is an actively managed portfolio that invests at least two-thirds of its assets in primarily investment grade global corporate and credit instruments. Portfolio duration may vary within two years of the benchmark and the fund may tactically invest up to 15% of assets in below-investment grade issues.

This fund offers the diversification benefit, yield premium, and greater total return potential of corporate and credit versus government securities.

The fund employs a diversified, risk-controlled, value-based approach to investing, expertise across global bond markets, and a broad opportunity set.

About PIMCO

Founded in 1971, PIMCO is a leading global investment management firm, offering a wide range of innovative solutions across asset classes. We manage the retirement and other assets of millions of people worldwide, and are advisors and asset managers to institutional investors such as insurance companies, central banks, corporations and charities around the globe. Our goal is to provide attractive returns while maintaining a strong culture of risk management and long-term discipline.

² Yields reported gross of fees, the deduction of which will reduce the yield. ³ Annualised distribution yield= (Dividend Rate * 4) / NAV on ex-dividend day. Annualised Distribution Yield is as of 30/06/2017. Dividend is not guaranteed. A positive distribution yield does not imply a positive return. ⁴ Where permitted by the investment guidelines stated in the portfolios offering documents, "other" may include exposure to, convertibles, preferred, common stock, equity-related securities, and Yankee bonds. Morningstar ratings are shown for funds with 4 or 5 star ratings only. Other share classes ratings are either lower or unavailable. A rating is not a recommendation to buy, sell or hold a fund. Past performance is not a guarantee or a reliable indicator of future results and no guarantee is being made that similar returns will be achieved in the future. Investment returns not denominated in US/HK dollar will expose US/HK dollar-based investors to exchange rate fluctuations. The Funds typically offer different share classes, which are subject to different fees and expenses (which may affect performance), have different minimum investment requirements and are entitled to different services. In an environment where interest rates may trend upward, rising rates will negatively impact most bond funds, and fixed income securities held by a fund are likely to decrease in value. Bond funds and individual bonds with a longer duration (a measure of the expected life of a security) tend to be more sensitive to changes in interest rates, usually making them more volatile than securities with shorter durations. PIMCO Funds: Global Investors Series plc is an umbrella type open-ended investment company with variable capital and is incorporated with limited liability under the laws of Ireland with registered number 276928.
