

Principal Life Style Fund - Hong Kong Equity Fund

Overall Morningstar Rating™ ★★★

As of 31/3/2019

Important Notes:

- Principal Hong Kong Equity Fund ("Fund") will invest primarily in listed equities issued by companies established in Hong Kong or by companies whose shares are listed in Hong Kong. The Fund may also invest in listed equities issued by companies which have business in Hong Kong.
- The Fund invests in a single country. Compared with a well-diversified fund, its concentration risk is relatively high and hence it might be more volatile than a well-diversified fund. The Fund is also subject to liquidity, emerging market and securities risks.
- For R6 Class Units of the Fund, dividend is not guaranteed. The manager may at its discretion pay dividend effectively out of the capital attributable to the R6 Class Units of the Fund (i.e. making the distribution from gross income while charging all or part of the fees and expenses attributable to the R6 Class Units to the capital out of such Units of the Fund), resulting in an increase in distributable income for the payment of dividend by the R6 Class Units of the Fund and may result in an immediate reduction of the net asset value per unit of the R6 Class Units of the Fund. Such payment of dividend effectively out of capital amounts to a return or withdrawal of part of an investor's original investment in the R6 Class Units of the Fund or from any capital gains attributable to that original investment.
- Investment involves risk. There is no assurance on investment returns and you may not get back the amount originally invested.
- The investment decision is yours and you should not invest in this Fund unless the intermediary who sells it to you has advised you that it is suitable for you and explained how it is consistent with your investment objectives.
- You should not rely solely on this marketing material when making your investment decision. You should read the Explanatory Memorandum of Principal Life Style Fund for further details (including investment policy, risk factors, fees and charges, and fund information).

Investment Objective

Seek to achieve capital growth over the long-term by investing mainly in Hong Kong equity markets.
