

# vFamily Medical Plan

is a Flexi Plan certified by the Hong Kong Special Administrative Region Government (the “Government”) under the Voluntary Health Insurance Scheme (“VHIS”) (Certification Number: F00072)

The key building block of a healthy future  
for you and your family

# vFamily Medical Plan

More than anything else, looking after your loved ones includes taking care of their health. Indeed, you would no doubt want to extend the coverage to them for peace of mind. For the ones who matter most to you, nothing less will do.

vFamily Medical Plan (“the Plan”), certified by the Government, is designed to provide comprehensive yet straightforward coverage, with simplicity in mind. The Plan provides you with full coverage<sup>1</sup> for a wide range of hospitalisation and surgical expenses worldwide<sup>2</sup>, with no itemised benefit limits. Its scope of coverage even extends to unknown Pre-existing Conditions, including Congenital Conditions. In addition, with the concept of “per Disability<sup>3</sup> per Policy Year” claims mechanism, the aggregate limit per Disability<sup>3</sup> per Policy Year of HKD550,000 will be counted afresh for each Disability<sup>3</sup> and in each Policy Year, allowing the coverage and benefit limits to be reset on a more frequent basis.

To prepare the support for your child in the future, the Plan allows you to apply for the Family Booster for Child Option<sup>4</sup> (Optional Benefit), which includes several innovative benefits and rights — child booster benefit, child development benefit and the option to apply for a designated medical plan for your child at specified ages without providing health evidence. We are committed to ensuring your child will get the strongest possible support from us.

The Plan can be more affordable than you’d expect. By taking advantage of no claims premium discount as wellness incentives for staying healthy, and extra discounts for multiple purchases and living a healthy lifestyle with your family, you can enjoy savings of up to 30%.

At FWD, giving you and your family the best possible health protection is our top priority.

## Core policy benefits

### Worldwide<sup>2</sup> full coverage<sup>1</sup> for a wide range of hospitalisation and surgical expenses

The Plan provides full coverage<sup>1</sup> on a wide range of hospitalisation and surgical expenses anywhere in the world<sup>2</sup>. Without Annual Benefit Limit and Lifetime Benefit Limit, Eligible Expenses and/or other expenses which are reasonable and customary incurred can be reimbursed up to HKD550,000 per Disability<sup>3</sup> per Policy Year.

### Innovative reimbursement basis with limits reset per Disability<sup>3</sup> per Policy Year

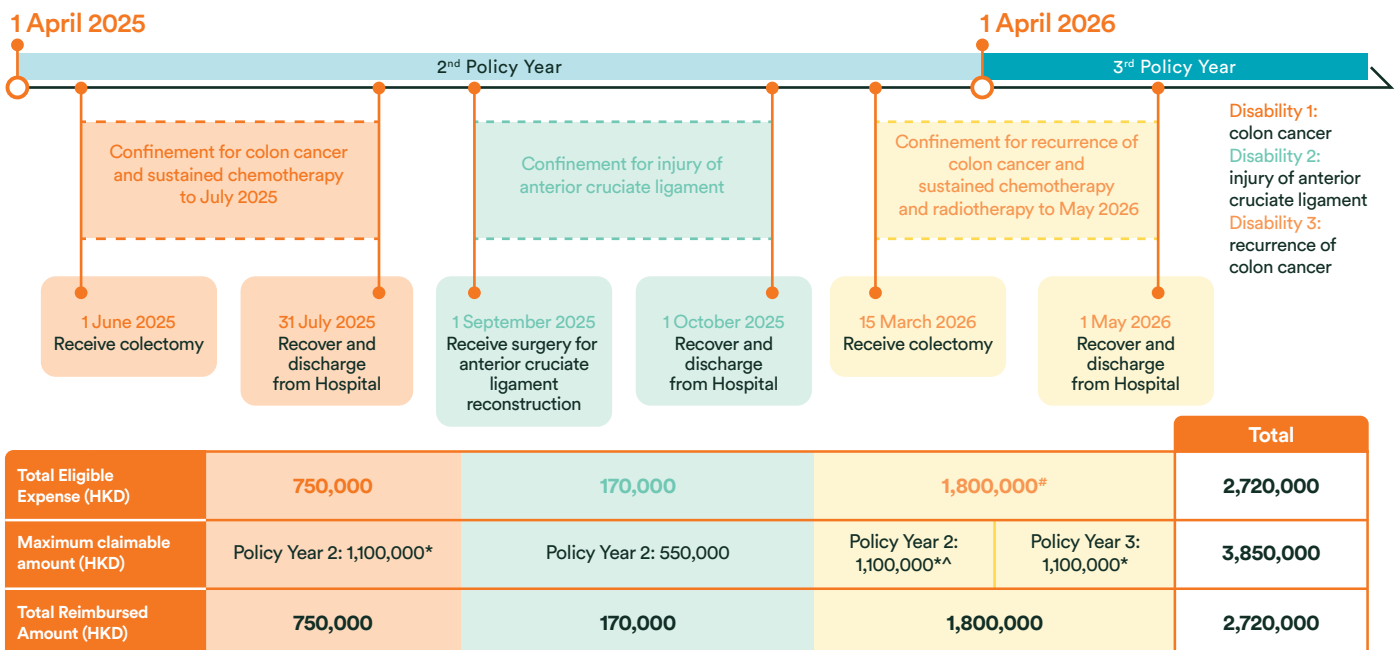

By combining “per Disability<sup>3</sup>” and “per Policy Year” reimbursement basis, an innovative concept of “per Disability<sup>3</sup> per Policy Year” claims mechanism is introduced in the Plan, enabling you to utilise your coverage by having the limits of individual benefit items and the aggregate limit per Disability<sup>3</sup> per Policy Year counted afresh for each Disability<sup>3</sup> and in each Policy Year. In case of receiving prolonged treatments across Policy Years for the same Disability<sup>3</sup>, or requiring treatments for multiple Disabilities<sup>3</sup> within the same Policy Year, you will not have to be troubled by losing coverage due to the quickly exhausted limits in a Policy Year or for a particular Disability<sup>3</sup>.

## Example

Mr. Chan has been covered by vFamily Medical Plan, with no Case-based Exclusion imposed at Application, since 1 April 2024. Starting from June 2025 (2<sup>nd</sup> Policy Year), his health began to deteriorate, entailing the necessity of multiple Confinements for treatment of different Disabilities. He occupied the Standard Ward Room during each period he was Confined.

(The following example is hypothetical and to illustrate the reimbursement basis of “per Disability per Policy Year” only which is not the actual medical expense and actual reimbursement amount. If there are any changes in the values, no separate announcement will be made.)

Insured Person’s details: Mr. Chan is an aged 30 (attained age) male non-smoker, Hong Kong resident, without known or unknown Pre-existing Conditions at the time of Application. He does not have other insurance coverage, and premium and levy are fully paid when due.

\* This maximum claimable amount comprises two parts, including the aggregate limit per Disability per Policy Year of HKD550,000 and an additional benefit for Prescribed Non-surgical Cancer Treatments, kidney dialysis and organ or bone marrow transplantation of HKD550,000 per Disability per Policy Year.

# Assume that HKD900,000 of Eligible Expenses are incurred in each of the 2<sup>nd</sup> and 3<sup>rd</sup> Policy Years, making up a total of HKD1,800,000 across the 2 Policy Years for Disability 3.

^ Even though Eligible Expenses in relation to Disabilities 1 and 3 were both caused by colon cancer and incurred within the same Policy Year, the maximum benefit limit per Disability per Policy Year for Prescribed Non-surgical Cancer Treatments, kidney dialysis and organ or bone marrow transplantation and the aggregate limit per Disability per Policy Year were counted anew, as Confinement for Disability 3 occurred over 90 days after the discharge date of Confinement for Disability 1.

### Guaranteed Renewable<sup>5</sup> comprehensive protection up to Age 100 (attained age) of the Insured Person

The Plan is guaranteed Renewable<sup>5</sup> until the Insured Person reaches the Age of 100 (attained age), so you can look forward to a lifetime of uninterrupted, all-round medical protection.

### Covers unknown Pre-existing Conditions starting from the 31<sup>st</sup> day of the first Policy Year

Any illness, Disease or Congenital Condition that was an unknown Pre-existing Condition at the time of Application will be fully covered by the Plan starting from the 31<sup>st</sup> day of the first Policy Year. Furthermore, the scope of protection is extended to cover Congenital Condition(s) having manifested or been diagnosed at any Age the Insured Person attains, so that you are well guarded even when you suffer from unknown Pre-existing Conditions.

### Broadening the safety net

Unlike medical plans that may exclude or limit coverage of many medical services that need to be provided on a long-term basis and at considerable cost, the Plan provides full coverage<sup>1</sup> on a wide range of medical expenses, including Prescribed Non-surgical Cancer Treatments<sup>13</sup>, kidney dialysis<sup>14</sup> (including the rental cost of a kidney dialysis machine for use at home) and organ or bone marrow transplantation. On top of the aggregate limit per Disability<sup>3</sup> per Policy Year of up to HKD550,000, you are entitled to an additional benefit for these three kinds of treatments of up to HKD550,000 per Disability<sup>3</sup> per Policy Year, which further eases your burden throughout your treatment journey.

### Innovative cash benefits to give you extra support

The Plan also offers various cash benefits which can provide you with extra support. You will be provided with an additional cash benefit under the following circumstance(s) if relevant Eligible Expenses are payable:

- (i) the surgery conducted is a Day Case Procedure. **[First-in-VHIS-market\*]** Cash benefit will be doubled up if the Insured Person receives designated Day Case Procedures at a Designated Healthcare Services Provider<sup>15</sup>,
- (ii) you have already been reimbursed by another insurance company<sup>16</sup>,
- (iii) **[First-in-VHIS-market\*]** you need to undergo a surgical procedure which is categorized as major or complex according to the Schedule of Surgical Procedures or as reasonably determined by us if the surgical procedure is not included in the Schedule of Surgical Procedures, or
- (iv) **[First-in-VHIS-market\*]** you have been Confined in Intensive Care Unit for at least 3 consecutive days in Hong Kong.

### Rehabilitation benefits

We understand your recovery journey requires just as much support as your treatment. The Plan also covers rehabilitation treatment<sup>14</sup> and post-Confinement home nursing<sup>14</sup>, so your financial burden will be lightened and you can focus on recovery.

### Tax savings<sup>6</sup>

The Plan has been formulated to meet all Government regulatory standards to protect your benefits, allowing you to enjoy tax deduction. Tax deduction is subject to the latest rules and regulations of the Inland Revenue Department of Hong Kong Special Administrative Region.

For details of tax deduction, please refer to the “Tax deduction” section under Important Notes.

## Extra protection and rewards for you and your family

### Extensive protection during pregnancy

Unexpected events can happen, and the medical expenses incurred could be a significant financial burden. The Plan provides peace of mind protection, with full coverage<sup>1</sup> for the Eligible Expenses incurred for pregnancy complications<sup>7</sup>. Furthermore, **[First-in-VHIS-market<sup>+</sup>]** the amount of the respective cash benefits for Confinement in Intensive Care Unit in Hong Kong of HKD6,000 and death benefit of HKD20,000 will be doubled up if the benefit(s) is/are payable due to pregnancy complications<sup>8,9</sup>.

## Key Product Risks

---

### Credit Risk

This Plan is an insurance Policy issued by FWD. The Application of this insurance product and all benefits payable under your Policy are subject to the credit risk of FWD. You will bear the default risk in the event that FWD is unable to satisfy its financial obligations under this insurance contract.

### Exchange Rate and Currency Risk

The Application of this insurance product with the Policy currency denominated in a foreign currency is subject to that foreign currency's exchange rate and currency risk. The foreign currency may be subject to the relevant regulatory bodies' control (for example, exchange restrictions). If your home currency is different from the Policy currency, please note that any exchange rate fluctuation between your home currency and the Policy currency of this insurance product will have a direct impact on the amount of premium required and the value of benefit(s) to be received. For instance, if the Policy currency of the insurance product depreciates substantially against your home currency, there is a negative impact on the benefits you receive from this Plan. If the Policy currency of the insurance product appreciates substantially against your home currency, your burden of the premium payment is increased.

### Inflation Risk

The cost of living in the future may be higher than now due to the effects of inflation. Therefore, the benefits under this Plan may not be sufficient for the increasing protection needs in the future even if FWD fulfills all of its contractual obligations.

### Premium Adjustment

The Standard Premium is non-guaranteed and will be determined annually based on the attained age of the Insured Person at the time of Renewal. The Standard Premium may increase significantly due to factors including but not limited to Age, medical inflation, and claims experience and policy persistency in the same Portfolio.

### Premium Term and Non-Payment of Premium

The premium payment term of the Plan is up to the Age of 100 years (attained age) of the Insured Person. FWD allows a grace period of 30 days after the premium due date for payment of each premium. This Policy shall continue to be in effect during the grace period but no benefits shall be payable unless the premium is paid. If a premium is still unpaid at the expiration of the grace period, the Policy will be terminated from the date the first unpaid premium was due. Please note that once the Plan is terminated on this basis, you will lose all of your benefits.

### Termination Conditions

The Policy shall be automatically terminated on the earliest of the followings:

- (a) where the Policy is terminated due to non-payment of premiums after the grace period as specified in Section 13 of Part 2 or Section 3 of Part 3 of the Terms and Benefits of the Policy provisions; or
- (b) the day immediately following the death of the Insured Person; or
- (c) FWD has ceased to have the requisite authorisation under the Insurance Ordinance to write or continue to write the Policy.

Immediately following the termination of this Policy, insurance coverage under the Policy shall cease to be in force. No premium paid for the current Policy Year and previous Policy Years shall be refunded, unless specified otherwise.

Where the Policy is terminated pursuant to (a), the effective date of termination shall be the date that the unpaid premium is first due.

Where the Policy is terminated pursuant to (b) or (c), FWD shall refund the relevant premium paid for the current Policy Year on a pro rata basis.

Moreover, the Policy shall also be terminated if you decide to cancel the Policy or not to renew the Policy in accordance with Section 3 of Part 2 or Section 1 of Part 4 of the Terms and Benefits of the Policy provisions, as the case may be, by giving the requisite written notice to FWD. If the Policy is terminated for cancellation after cooling-off period, the effective date of termination shall be the date as stated in the cancellation notice given by you. However, such date shall not be within or earlier than the 30-day notice period. If the Policy is not renewed, the effective date of termination shall be the renewal date immediately following the expiry of the Policy Year during which the Policy remains valid.

For more details, please refer to Section 15 of Part 2 of the Terms and Benefits of the Policy provisions.

## Key Product Risks

### Credit Risk

This Family Booster for Child Option attached to the Basic Policy is issued by FWD. The application of this Family Booster for Child Option and all benefits payable under this Family Booster for Child Option are subject to the credit risk of FWD. You will bear the default risk in the event that FWD is unable to satisfy its financial obligations under this insurance contract.

### Exchange Rate and Currency Risk

The application of this Family Booster for Child Option with the currency denominated in a foreign currency is subject to that foreign currency's exchange rate and currency risk. The foreign currency may be subject to the relevant regulatory bodies' control (for example, exchange restrictions). If your home currency is different from the currency of Family Booster for Child Option, please note that any exchange rate fluctuation between your home currency and the currency of Family Booster for Child Option will have a direct impact on the amount of premium required and the value of benefit(s) to be received. For instance, if the currency of Family Booster for Child Option depreciates substantially against your home currency, there is a negative impact on the benefits you receive from this Family Booster for Child Option. If the currency of Family Booster for Child Option appreciates substantially against your home currency, your burden of the premium payment is increased.

### Inflation Risk

The cost of living in the future may be higher than now due to the effects of inflation. Therefore, the benefits under this Family Booster for Child Option may not be sufficient for the increasing protection needs in the future even if FWD fulfills all of its contractual obligations.

### Premium Adjustment

The premium of this Family Booster for Child Option is non-guaranteed and will be determined annually based on the attained age of the insured person of the Basic Policy at the time of Renewal. The premium of this Family Booster for Child Option may increase significantly due to factors including but not limited to age of insured person of the Basic Policy, medical inflation, and claims experience and policy persistency in the same portfolio.

### Premium Term and Non-Payment of Premium

The premium payment term of this Family Booster for Child Option is up to the age of 100 years (attained age) of the insured person of the Basic Policy. FWD allows a grace period of 30 days after the premium due date for payment of each premium. This Family Booster for Child Option shall continue to be in effect during the grace period but no benefits shall be payable unless the premium of the Basic Policy, this Family Booster for Child Option and other rider(s) that is(are) attached to the Basic Policy (if any) are paid in full. If the premiums are still unpaid at the expiration of the grace period, the Basic Policy, this Family Booster for Child Option and other rider(s) that is(are) attached to the Basic Policy (if any) shall be terminated from the date the first unpaid premium was due. Please note that once the Basic Policy, this Family Booster for Child Option and other rider(s) that is(are) attached to the Basic Policy (if any) are terminated on this basis, you will lose all of your benefits.

### Termination Conditions

This Family Booster for Child Option shall be automatically terminated in its entirety on the earliest of the followings:

- (a) where the Family Booster for Child Option is terminated due to the failure to pay premiums of the Basic Policy, this Family Booster for Child Option and other rider(s) that is(are) attached to the Basic Policy (if any) in full after the grace period as specified in Section 3 of Part 3 of the Terms and Conditions of Family Booster for Child Option attached to the policy provisions of the Basic Policy;
- (b) the termination of the Basic Policy pursuant to sections 15(b) and (c) of part 2 of the terms and benefits of the policy provisions of the Basic Policy; or
- (c) FWD has ceased to have the requisite authorisation under the Insurance Ordinance to write or continue to write the Basic Policy and/or this Family Booster for Child Option.

Notwithstanding the termination conditions of this Family Booster for Child Option as specified in (a) to (c), the coverage for each Covered Child under this Family Booster for Child Option shall be automatically terminated on the earliest of the followings –

- (d) the day on which the Covered Child has reached the attained age of nineteen (19) years; or
- (e) the day immediately following the death of the Covered Child.

Where the coverage for a Covered Child under this Family Booster for Child Option is terminated under (d) or (e), the coverage for other Covered Child(ren) (if applicable) shall remain effective as long as this Family Booster for Child Option remains in force.

While the coverage for a Covered Child under this Family Booster for Child Option is in effect, partial termination of the coverage for the Covered Child shall take place in accordance with the conditions set out below –

- (f) The coverage of child booster benefit as described in Part 6(A) of the Terms and Conditions of Family Booster for Child Option attached to the policy provisions of the Basic Policy shall be terminated when the aggregate claims amount paid in accordance with the child booster benefit under these Terms and Benefits of Family Booster for Child Option reaches the Lifetime Benefit Limit for Each Covered Child as set out in the Benefit Schedule for Child Booster Benefit; or
- (g) The option to apply for designated medical insurance plan at specified ages of the Covered Child as specified in Part 6(C) of the Terms and Conditions of Family Booster for Child Option attached to the policy provisions of the Basic Policy shall cease to be effective for such Covered Child once exercised by the Policyholder.

If partial termination of the coverage for a Covered Child under this Family Booster for Child Option takes place, other benefits described in Part 6 of the Terms and Conditions of Family Booster for Child Option attached to the policy provisions of the Basic Policy shall remain in effect, unless the coverage for the Covered Child under this Family Booster for Child Option is terminated under (a) to (e). For the avoidance of doubt, partial termination of the coverage for a Covered Child shall not affect the benefits described in Part 6 of the Terms and Conditions of Family Booster for Child Option attached to the policy provisions of the Basic Policy of other Covered Child(ren) (if applicable) under this Family Booster for Child Option.
