#### Remarks:

- The policy currencies of this Product are HKD or RMB. For RMB denominated plans, FWD will allow the settlement of the premium payment(s), benefit(s) and refund of premium(s) in HKD subject to the following:
  - The currency conversion will be based on the prevailing market-based exchange rate between RMB and HKD as determined by FWD at its sole discretion from time to time. Exchange rate of RMB against HKD may fall as well as rise. Any fluctuations in the RMB-HKD exchange rate will have a direct impact on the value of your premium(s) and benefit(s) as calculated in HKD. If the RMB appreciates after the Policy is issued, the premium payable for the second Policy Year will be higher than the first year premium when calculated in HKD. If the RMB depreciates substantially against the HKD upon a benefit(s) becoming payable, you will lose a substantial portion of the benefit(s) if the benefit(s) are paid in HKD. Any conversion between RMB and HKD carries a risk of exchange rate fluctuation; you should take such exchange rate risk into consideration.
  - If the premium(s) and/ or benefit(s) under this Product cannot be paid in RMB or in HKD either of a change in regulation(s) or for such other reasons as FWD may solely determine, FWD shall, at its sole discretion determine the currency, the currency exchange rate and the manner of calculating the premium(s) receivable, the benefit(s) payable and the premium refundable under this Product.
- Notional Amount is used to calculate premium and Guaranteed Cash Value. Notional Amount is not related to Death Benefit and FWD will not pay this amount upon the death of the Insured.
- The Guaranteed Cash Value falling between two policy anniversaries will be determined by FWD by prorating the Guaranteed Cash Value as at last and next policy anniversaries. If the Policy Owner surrenders the Policy while it is in force before the Maturity Date, the Policy Owner will be paid the Guaranteed Cash Value less any unpaid premiums as Surrender Benefit.
- Death benefit will be paid after deducting any unpaid premiums.

## What are the key product risks?

### Credit Risk

This Product is an insurance policy issued by FWD. The application of this insurance product and all benefits payable under your Policy are subject to the credit risk of FWD. You will bear the default risk in the event that FWD is unable to satisfy its financial obligations under this insurance contract.

### Liquidity Risk

This product is 3 year term insurance policy as determined starting from the policy effective date to the policy maturity date. The Policy contains value and, if you surrender your Policy in the early policy years or before its maturity date, the amount you get back may be considerably less than the total premiums you have paid. Application of the Product may constitute the liquidity risk to your financial condition. You need to bear the liquidity risk associated with the Product.

### Exchange rate and currency risk

The application of this Product with the policy currency denominated in a foreign currency is subject to that foreign currency’s exchange rate and currency risk. The foreign currency may be subject to the relevant regulatory bodies’ control (for example, exchange restrictions). If your home currency is different from the policy currency, please note that any exchange rate fluctuation between your home currency and the policy currency of this Product will have a direct impact on the amount of premium required and the value of benefit(s) to be received. For instance, if the policy currency of the insurance product depreciates substantially against your home currency, the potential loss arising from such exchange rate movement may have a negative impact on the benefits you receive from this Product and your burden of the premium payment.

### Inflation Risk

The cost of living in the future may be higher than now due to the effects of inflation. Therefore, the benefits under this Policy may not be sufficient for the increasing protection needs in the future even if FWD fulfils all of its contractual obligations.

### Early Surrender Risk

If you surrender your Policy in the early policy years or before its maturity date, the amount of the benefit you will get back may be considerably less than the total amount of the premiums you paid.

### Premium Payment term and non-payment of premium

The premium payment term of the Policy is 2 years. FWD allows a Grace Period of 30 days from the premium due date of the premium for the second Policy Year. If a premium is still unpaid at the expiration of the Grace Period, FWD will forcibly surrender the Policy effective from the date the unpaid premium was due. FWD will pay the Policy Owner the Guaranteed Cash Values less unpaid premiums. Please note that once the Policy is terminated on this basis, you will lose all of your other benefits.

### Termination conditions

The policy shall terminate on the earliest of the following:

- (1) when the Insured dies;
- (2) the Maturity Date;
- (3) when the Policy Owner surrenders the Policy. FWD will determine the surrender date based on its rules and regulations at that time;
- (4) when the premium grace period expires, and FWD has not received the premium payment.
